LOGISTIC QUOTATION

SERVICES FOR SMES AND MSMES

Business World Trade has always fulfilled its objective of connecting buyers and suppliers for a long time. In growing and developing its business, Business World Trade has partnered with various leading organizations that provide the best delivery services. It is for all the SMEs where they can easily promote the shipment of goods conveniently and efficiently. The clients can look at the quotations from various renowned transportation providers and then choose the one accordingly. Further, customers can access and track the order through GPS technology with a 24/7 customer care executive. We aim to provide fast and secure transportation services and experience to all our clients.

ON PAGE SEO & OFF PAGE SEO

On-page SEO is the practice of optimizing individual web pages in order to rank higher and earn more relevant traffic in search engines. On-page refers to both the content and HTML source code of a page that can be optimized, as opposed to off-page SEO which refers to links and other external signals.

"Off-page SEO" (also called "off-site SEO") refers to actions taken outside of your own website to impact your rankings within search engine results pages (SERPs).

Optimizing for off-site ranking factors involves improving search engine and user perception of a site's popularity, relevance, trustworthiness, and authority. This is accomplished by other reputable places on the Internet (pages, sites, people, etc.) linking to or promoting your website, and effectively "vouching" for the quality of your content.

SOCIAL MEDIA CAMPAIGN

"Each Facebook ad campaign is made up of three parts. At the campaign level, you choose your objective, which is the action you want people to take when they see your ads. Facebook has three objective categories: Awareness, Consideration, and Conversion. Choose from 11 Facebook advertising objectives.

Video campaigns allow you to reach and engage with your audience on YouTube and through Google video partners. When you create a Video campaign, you can choose from different campaign goals, campaign subtypes, and ad formats that tell people about your products and services and get them to take action.

EXPORT BILL DISCOUNTING

We have perfect financial resolutions for Indian EXPORTERS

Export bill discounting is a global trade term and practice. Export bill discounting is intended to support businesses faster payment for the goods they have shipped to the buyer. Export bill discounting befalls when a business deals with a buyer for their goods on credit. In international trade, this can be called a letter of credit, and a third-party financing company applies this agreement to determine the export bill discount amount.

BENEFITS

Zero deposit
and security

Credit limit as per
exporter demand

80% bill in the front,
quickly after the
specific goods get
dispatched

Competing rates
(0.7-0.9% per month)

Quick approval,
least paperwork,
convenient.
