## SERVICES FOR SMES AND MSMES

Business World Trade has always fulfilled its objective of connecting buyers and suppliers for a long time. In growing and developing its business, Business World Trade has partnered with various leading organizations that provide the best delivery services. It is for all the SMEs where they can easily promote the shipment of goods conveniently and efficiently. The clients can look at the quotations from various renowned transportation providers and then choose the one accordingly. Further, customers can access and track the order through GPS technology with a 24/7 customer care executive. We aim to provide fast and secure transportation services and experience to all our clients.

# ON PAGE SEO & OFF PAGE SEO

On-page SEO is the practice of optimizing individual web pages in order to rank higher and earn more relevant traffic in search engines. On-page refers to both the content and HTML source code of a page that can be optimized, as opposed to off-page SEO which refers to links and other external signals.

"Off-page SEO" (also called "off-site SEO") refers to actions taken outside of your own website to impact your rankings within search engine results pages (SERPs).

Optimizing for off-site ranking factors involves improving search engine and user perception of a site's popularity, relevance, trustworthiness, and authority. This is accomplished by other reputable places on the Internet (pages, sites, people, etc.) linking to or promoting your website, and effectively "vouching" for the quality of your content.
